Notes:

- 1) The Environment First Fund appropriation to REAP remained at \$18.0 million for FY 2009. Statute requires 28.0% of REAP funds to be allocated for the purchase of land or open spaces. As funding for REAP increases, the amount of money for land purchases also increases.
- 2) Data represents land approved for purchase. This may differ from land actually purchased. The Natural Resource Commission approves the purchase of land before the Department of Natural Resources (DNR) can make the purchase. If the actual amount of land is lower, the DNR notifies the Commission.
- 3) Data does not include land purchased by local governments through DNR programs or federal land acquired through the DNR.

■ As of June 30, 2009, the DNR owned 350,900 acres of land, 158,000 acres are forested.
